

The company received funding under the Action of the Regional Programme “Attica 2021–2027”, entitled “Strengthening Productive Investments for Adaptation, Modernization and Recovery.” The Action aims to support investment plans of existing micro and small enterprises operating in sectors that constitute development priorities for the Region of Attica, within the framework of the National Smart Specialisation Strategy (S3). The objective of the Action is to improve competitiveness, strengthen the resilience and extroversion of enterprises, and promote technological and organisational innovation.
